

EAP (Employee Assistance Program) – all employees of Home, Hope and Healing & Aspire Behavioral Health and Counseling are encouraged to take advantage of our company-sponsored EAP. This is a 100% employer-paid benefit available to our staff **and** their *household* family members! Our provider is **Workforce EAP & Training, Northern Light Health**. Our EAP is a confidential assessment, short-term counseling and referral service with experienced Counselors for personal or work problems affecting work or home, as well as professional financial and legal consultations. You also have available to you online work/life articles, personalized child and elder care locators, videos, and other materials! You will need our company code to participate in the counseling sessions and for the online services. All employees are given our company code at the company orientation. If you have misplaced our company code, contact the HR Office at 207-362-5252. Experienced Counselors are available 24 hours a day by calling 1-800-769-9819. Or, to access Financial and Legal Consultations, call 1-800-537-2153.

To access online services, here are some links to follow:

For the “Of Interest” EAP Newsletters highlighting all kinds of topics of interest, go to:
